

Gobble Gobble Graph

Plot and connect each set of points in order on graph paper. Each time you come to the word "Stop!" begin a new set of points on the graph. Do not connect points from different sets.

Gobble Gobble Graph

Scale the graph below by ones. Mark the x and y - axes. Then, plot the points from page 2 on the graph below. Connect the points in each set, up until the word "Stop!" When you are finished, don't forget to color your picture
