

1. Find the slope of the line pictured:

- a. 0
b. $-\frac{2}{3}$
c. $-\frac{3}{2}$
d. undefined

2. Draw a line on the graph that is parallel to the line pictured.

3. What is the slope of the line you drew in #2? _____

4. Find the slope of the line pictured

- a. $-\frac{5}{6}$
b. 0
c. $-\frac{6}{5}$
d. undefined

5. Draw a line on the graph that is perpendicular to the line pictured.

6. What is the slope of the line you drew in #5? _____

7. 3. Find the slope of the line pictured

- a. 13
b. 0
c. $\frac{1}{13}$
d. undefined

8. Draw a line on the graph that is parallel to the line pictured.

9. What is the slope of the line you drew in #8? _____

10. Draw a line on the graph that is perpendicular to the line pictured.

11. What is the slope of the line you drew in #10? _____
